As a new practice it is important that we develop ways of working that supports our values and ethos. From April 2018 we will be launching our new approach to providing GP services to you and your family.

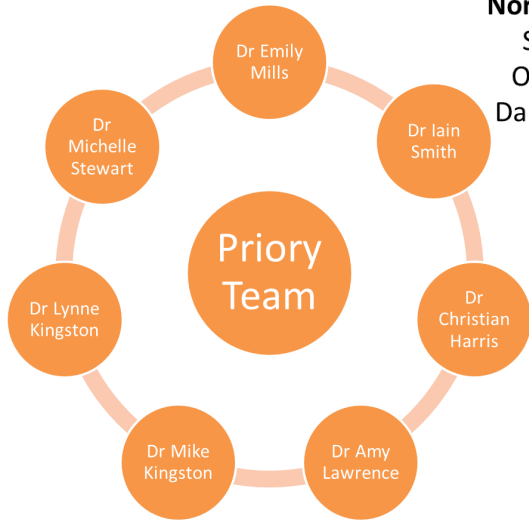

Strong practice-patient relationships, good continuity of care and delivery of high quality services are very important to us and as a large practice, covering many sites and a large geographic area this presents significant challenge.

Over recent months we have been working hard to develop our Clinical Teams, which will allow us to meet this challenge. Our Clinical Teams will reflect our local population. They will work together, in a particular geographic area and within specific LMP sites. There will be four teams of GPs who will be supported by other clinical and non-clinical staff.

Over the last 12 months some GPs have retired or left Lancaster Medical Practice. We are actively recruiting new GPs but this is proving a challenge for General Practice nationally and we are no exception to this.

If you were previously looked after by Dr Mechie, Dr Vaughan-Jones, Dr Breckon, Dr Amr or Dr Faisal you will be allocated a new GP over the next few weeks based on where you live. In the majority of cases this will be communicated to you by letter. As we do this piece of work we will also be ensuring each of our GPs have a fair allocation of patients to look after.
